ABOUT ME

I'm a passionate software developer with a strong interest in front-end development and creating engaging, user-focused experiences. I enjoy combining creativity with functionality and continuously seek to learn new technologies, improve my skills, and adapt to the fast-evolving world of technology.

EDUCATION

- **Vocational High School – Computer Science, Network Technician**
Grade: 19.8
- **University of Macedonia Applied Informatics
Computer Science and Technology**
2022 - 2026 | Grade: 7.1

LANGUAGES

- **Greek:** Native
- **English:** Upper Intermediate (B2)
Michigan Lower Certificate (University of Michigan)

CERTIFICATES

- **React - Scrimba**
- **Intro to AI engineering - Scrimba**
- **Javascript - Scrimba**
- **Tailwind CSS - Scrimba**

SKILLS

Programming Languages:
Python, Java, JavaScript, C

Databases: MySQL, PostgreSQL,
Firebase

Web Development:
HTML, CSS, React, Angular

Tools: Git, Github, VS Code, Figma

EXPERIENCE

- **Full-Stack Engineer Intern - Dataviva | 2026 (3 months)**

Gained hands-on software engineering experience by contributing to enterprise web applications. Developed dynamic user interfaces using Angular and engineered backend microservices with Spring Boot.

- **Printing Company, Kastoria, Greece | 2024 - 2026**

Re-architected and expanded a static responsive site into a full-stack web application using React, Express.js, and PostgreSQL. Built a secure management dashboard for dynamic product catalog and user administration. www.inprint.gr

PROJECTS

- **AI Recipe Generator | React, Spring Boot, PostgreSQL**

Built a full-stack web application using React and Spring Boot to generate custom recipes from user ingredients via the Claude AI API. Implemented secure user authentication across the React frontend and Spring Boot backend. Integrated a PostgreSQL database to allow authenticated users to save, store, and manage their recipe libraries.

- **Weather App | React**

Developed a responsive weather forecast application using React and the OpenWeather API to display real-time weather data for any location.
